Continuation of Substance of Interview including description of the general nature of what was agreed to if an agreement was reached, or any other comments: After discussing a general summary of the claimed invention and the Lum reference, Applicant noted their intention to include further limitations from the specification into the claims, specifically list manager information referencing a control and a unique identifier specifying a data element that a particular control is displaying. The examiner noted that to the best of his knowledge the Lum reference does not teach those limitations, but indicated that such an amendment would require further search and consideration, as the scope of the claims would be significantly changed. Applicant noted their intention to file an amendment incorporating the discussed limitations.
